FOR IMMEDIATE RELEASE

MacPherson Master Builders Earns Prestigious Design Award

(Toronto, ON) - MacPherson Master Builders has been honoured with an award for architectural design excellence at the 25th Annual Greater Toronto Home Builders' Association Awards. The award was for the Best Semi-Detached Model over 1,500 square feet.

There were over 900 people in attendance as the GTHBA handed out a series of awards that are the most prestigious for Canadian builders. MacPherson earned the award for their Collingwood area development, The Orchard at Craigleith. This award will bring much deserved recognition to the unique home design and custom communities being developed by MacPherson in small communities outside of the GTA.

For over 10 years, MacPherson has created custom executive single family homes and high-end townhomes in and around Toronto, and charming bungalow and two-storey designs throughout quaint old Ontario towns. The Orchard at Craigleith development includes a variety of single and semi-detached chalets and attached villas. The development was created to provide a home for all four seasons in harmony with the natural beauty and majestic surroundings of the Blue Mountains.

For further information on The Orchard at Craigleith, visit www.theorchard.ca.
